Point Energy Management is currently seeking candidates to fill the position of:

Facility Operators

Job Role:

- Deliver safe, efficient operation of central facilities through to export
- Demonstrate a culture of safety excellence, actively participating in JSAs and complying with all safety policies and procedures
- Support high up-time of facilities through diligent equipment surveillance, routine walkarounds and quickly escalating operational issues to Operations Foremen
- Provide safe isolation / drain / purge / vent and LOTO for routine maintenance and minor modifications
- Control work on location including checking in vendors, reviewing JSAs, and ensuring suitable controls are in place for essential hazardous activities
- Implement site improvement initiatives including optimization of operating parameters, cycling equipment, etc
- Monitor facilities for weeps / seeps, open ends, damage, corrosion, etc to actively prevent spills and loss of containment
- Support routine maintenance activities, including changeout of filters, stroking automated valves, purging / draining control lines, etc
- Daily handovers with opposite shift and daily reporting to Operations Foremen
- Front line troubleshooting of system alarms to restore plant to safe and stable operations as quickly as possible
- Lead facility emergency response during an incident

Preferred Background:

- Minimum 5 years in facility operations role
- Good understanding of upstream oil & gas facility operations and working knowledge of typical equipment
- Experience with PLC and SCADA interfaces for monitoring facility equipment, alarms and trending key parameters
- Experience in basic troubleshooting of pumps, pneumatic control valves and VRUs
- Ability to read Piping & Instrumentation Diagrams and Cause & Effect Diagrams to support understanding of facility design

Notes

- Hourly position; 14-14 rotation
- Reports to Operations Foremen
- Work location: Field locations near Barstow, TX
- Point Energy's assets include over 60 producing wells with an active development program bringing ~24 wells online per year

Qualified candidates may send resumes to: hr@pointep.com
